Real-Time System and Performance Monitoring with ALERTS!

Features

- Global PACS status monitoring/reporting
 - Critical process notifications
 - Dashboard status indicators
- Timely data consistency and validation
- Interactive HIPAA transaction log management
- Browser-based zero footprint application
- Fully integrated with GE Centricity® 2.0.x and up including 3.0
- Deployment time <30 days

The Power of Centricity PACS

Combining the power of PACSHealth, Centricity PACS establishes a workflow solution that is truly designed around delivering information at the center of care. The integration with PACSHealth builds on the already robust Centricity PACS 3.0 package: Platform for Integrated RIS/PACS, Comprehensive Enterprise Connectivity, Comprehensive Clinical Experience, Secure Infrastructure, and Simplified Licensing. Centricity PACS 3.0 unites technology and flexibility to take your business to new heights. The next wave of technology for imaging easily adapts to the way you work, so you can put your focus where it belongs-on your patient.

Why GE?

With nearly 30 years of Radiology information technology experience, GE Healthcare is dedicated to delivering solutions that streamline workflow and efficiencies to positively impact the way healthcare is delivered. Through performance, expertise, portfolio, and connectivity, GE Healthcare delivers information at the center of care.

Integration with PACSHealth in Centricity PACS builds on this commitment by giving you the freedom you need to audit and monitor system information, anywhere, anytime. Designed to streamline reporting and business analysis at your fingertips. As an optional integration for Centricity PACS, the healthcare experience is more improved for both specialist, healthcare provider, and patient. Providing virtual access which enables healthcare professionals to take action that transforms critical steps across the continuum of care. Changing healthcare so patients live their lives to the fullest.
