### **FOR IMMEDIATE RELEASE**

#### **PACSHEALTH TO INSTALL SYSTEM AT MONTEFIORE**

SCOTTSDALE, AZ, November 19, 2006 -- PACSHealth, LLC, the developer of PACSHealth™, an innovative application that uses advanced monitoring and reporting tools to improve Picture Archiving and Communication System (PACS) workflow and throughput, announced today that it has signed an agreement to install its PACSHealth™ system at Montefiore Medical Center in Yonkers, NY.

Montefiore will integrate PACSHealth™ with its General Electric Healthcare Centricity® 3.0 PACS to provide real-time critical system event monitoring, historical performance trending and interactive Health Information Accountability and Portability (HIPAA) log query capabilities. The hospital will use this dashboard of information to improve patient outcomes by analyzing its PACS data and intercepting patient or study mismatch errors.

PACSHealth, LLC is a developer of software systems for medical imaging technology. Its Web address is [www.pacshealth.com](http://www.pacshealth.com).

Montefiore Medical Center is one of the nation's leading centers for medical education and research; it includes three hospitals, a network of neighborhood health centers, ambulatory specialty services, home healthcare, and rehabilitation and nursing home care. It is also the university hospital and academic medical center for the Albert Einstein College of Medicine.
