

New Partnership Announcement

MIS Healthcare and PACSHealth, Ltd. Join Forces to Advance Medical Imaging Analytics Software Across the UK

MIS Healthcare and PACSHealth, Ltd. (London, UK) are pleased to announce a strategic partnership that will bring PACSHealth's medical imaging analytics software suite to hospitals and imaging departments across the UK. MIS Healthcare, a UK-based distributor of cutting-edge medical imaging solutions, works with leading manufacturers to deliver high quality diagnostic equipment and service support.

PACSHealth, Ltd. offers a comprehensive suite of solutions designed to monitor, report and analyse enterprise imaging systems, enabling real-time PACS monitoring, audit-log management, and seamless connectivity with RIS/PACS infrastructures. By combining PACSHealth's platform with MIS Healthcare's service and support capabilities, healthcare providers will gain access to tools that optimise workflow and drive better clinical performance.

"At MIS Healthcare, our focus is on delivering technologies that not only enhance diagnostic accuracy but also drive greater efficiency across clinical workflows," commented Mark O'Herlihy, CEO of MIS Healthcare. "Through our partnership with PACSHealth, we can provide UK hospitals with a trusted platform that improves system performance and ultimately helps deliver better outcomes for patients."

Mike Battin, COO of PACSHealth, Ltd. said: "PACSHealth Ltd. has been delivering industry leading advanced software tools for data quality and patient radiation dose management since its inception in 2005. We began with a simple mission - to improve patient outcomes by giving users the ability to access and manage the vast amount of data within their own facility.

It is timely for us to celebrate our 20th year by engaging with MIS Healthcare to provide greater access and support across the UK and Ireland."

With their aligned commitment to innovation and service MIS Healthcare and PACSHealth, Ltd. are well-positioned to deliver next-generation solutions to the UK market, supporting healthcare providers with the highest levels of technology, expertise and ongoing support.

We're excited to announce a new strategic partnership between MIS Healthcare and PACSHealth! 🚀

Together, we'll be bringing **PACSHealth's advanced PACS analytics software** to hospitals and imaging departments across the UK — empowering healthcare providers with smarter monitoring, deeper insights, and improved clinical performance.

PACSHealth delivers powerful tools for:

- ◆ Real-time PACS monitoring
- ◆ Audit-log management
- ◆ Seamless integration with RIS/PACS infrastructures
- ◆ Enhanced workflow visibility and performance analytics

By combining MIS Healthcare's nationwide service and support with PACSHealth's innovative technology, we're strengthening our commitment to providing next-generation imaging solutions that enhance efficiency, accuracy, and patient outcomes.

We're proud to be working with PACSHealth and look forward to bringing even greater value and innovation to healthcare providers across the UK.
